April 14, 2021
Press Release

Media Contact: Terrie Burgan, RN, BSN, MPH

On April 13th, Lincoln Trail District Health Department (LTDHD) suspended all Janssen (Johnson and Johnson) vaccination clinics until federal officials evaluate the development of a rare blood clotting condition that occurred in six women. Halting these clinics has required our agency to change course in order to continue vaccination efforts. As a result, LTDHD will replace the use of the Janssen vaccine with Pfizer. Vaccination against COVID-19 remains more critical than ever, according to Sara Jo Best, Public Health Director. Utilizing the Pfizer vaccine allows us to tap into existing resources permitting us to continue the current pace of protecting as many people in our communities as possible.

LTDHD will receive over 1000 doses of Pfizer. Anyone 16 and older who resides within the LTDHD service area is eligible to be vaccinated. A parent must accompany minors to provide consent for vaccination. Appointments are required. Individuals can register for all upcoming clinics (see below), beginning April 15th at 9:00am.

❖ April 20th in Hardin County
❖ April 28th in Hardin County
❖ April 29th in Nelson County
