

If you were exposed to COVID-19 and are FULLY VACCINATED

Take steps to protect yourself and others:

- Get tested 3-5 days after the day you were exposed to COVID-19.
- Wear a mask in indoor public settings for 14 days or until you receive a negative test result.
- If you do not have symptoms of COVID-19, you do not need to quarantine.
- Monitor for symptoms for 14 days following your exposure.
- Consider wearing a mask at home if you live with persons who are at high risk.

Isolate yourself if you develop symptoms:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Seek emergency medical care if you experience chest pain, blue or gray lips/finger nails, or difficulty staying awake.

If your Local Health Department calls you, tell them:

- Basic information about you
- Where you been (work, school, house of worship, etc.)
- Your medical history and vaccine information
- If you have COVID-19 symptoms and when they began
- If you need support or help call your healthcare provider
